TIME FOR A CHANGE

Back to School Tips

1. What school tools helped your child last year?

2. What school tools didn't support or work for your child?

What could you try this year?

Checklist for Back to School Planning

- **Shop for non-school related items before school items.**
- **Shop for school related items 1/2 a month before school.**
- **Shop online for school basics - add to cart then review with you child/ren. Consider what worked and what did not last school year.**
- **Consider technology and what is needed to protect their device.**
- **Consider a back to school gathering with friends to reconnect to get excited about school relationships again.**
- **Set up and organize back to school items - a few days before school starts.**
- **If something is missed - don't worry. The first week gives you time to help your child get fully set up with what they need.**

Checklist for Bring Your Own Device

- **Visit a store that has a few options for the device your child.**
- **Try out the keyboard, touchscreen, screen size etc**
- **Ask yourself what is the main purpose of this device this year?**
- **Set up apps or programs your child needs in advance.**
- **Focus on a few apps to start with - limit or minimize games on this school related device.**
- **Work on skills before asking your child to use the device at school.**
- **Set up a time to work with the teacher/admin about using the device at school.**
- **Provide a document that you are responsible for the device - not them.**
